NEW QUESTION: 1

You have a computer that runs Windows 7. The computer is configured to automatically download and install updates. You install Microsoft Office 2007.

You need to ensure that service packs for Office are

automatically installed.

What should you do?

A. Download and install the Office 2007 administrative template and disable the Block updates from the Office Update Site from applying policy.

B. Create a folder named Updates in C:\Program Files\Microsoft Office. Install the Office Update Inventory Tool into the Updates folder.

C. From Windows Update, select Get updates for other Microsoft products.

D. From Windows Update, select Restore hidden updates.

Answer: C

Explanation:

Explanation/Reference:

Explanation:

Use Windows Update to Check for Updates to other Microsoft Products

By default, Windows Update can download and install updates for Windows 7 and features that are part of the operating system (such as Internet Explorer). You can also merge the functionality of Microsoft Update

-a service for managing updates to Microsoft Office and several other Microsoft products-into Windows Update so that you no longer need to visit Office Online to get updates. If you do not already have Windows Update integrated with Microsoft Update, you will see the message "Get updates for other Microsoft products" on the Windows Update home page. To enable checking for other products, click the Find Out More option shown beside this message. This will take you to the Microsoft Update site for some quick installation steps. You only need to do this once. Thereafter, the Windows Update home page will indicate that you receive updates "For Windows and other products from Microsoft Update."

NEW QUESTION: 2
