So your chance of getting success will be increased greatly by our SK0-004 exam questions.

**NEW QUESTION: 1**
A security administrator wants to profile endpoints and gain visibility into attempted authentications. Which 802.1x mode allows these actions?
**A.** monitor mode
**B.** high-security mode
**C.** closed mode
**D.** low-impact mode
**Answer: A**
Explanation:
Monitor Mode
Monitor Mode is a process, not just a command on a switch. The process is to enable authentication (with authentication open), see exactly which devices fail and which ones succeed, and correct the failed authentications before they cause any problems.

**NEW QUESTION: 2**
You create a topology that includes Enterprise Voice. You

configure the system to play a
message when unassigned numbers are dialed.
You need to add the voice announcements.
Which two file formats can you use? Each Answer presents a
complete solution.
